VISHNU M S

Infrastructure Engineer

vishnumsundar5@gmail.com | +91 7907654546 | Palakkad, India | www.linkedin.com/in/vishnumsundar

Professional Summary

IT Professional with experience in NOC operations, system administration, Microsoft 365 administration, infrastructure monitoring, automation, and network support. Skilled in Active Directory, Exchange Online, Windows Server environments, virtualization (VMware, Hyper-V), PowerShell scripting, Datto RMM automation, and troubleshooting complex system and network issues. Experienced in user lifecycle management, backup and disaster recovery, Windows patch management, infrastructure migration projects, and maintaining enterprise IT environments while meeting SLA requirements.

Core Skills

Windows Server	Active Directory, Group Policy, DNS, DHCP
Virtualization	VMware, Hyper-V
Cloud	Basic experience with AWS, Azure
RMM Tools	N-Central, Ninja, Datto, Kaseya, Atera, ConnectWise, Syncro
Remote Support	TeamViewer, Ninja, Splashtop, ScreenConnect, N-central Remote
Ticketing	Halo, Autotask, Salesforce, Freshdesk, ConnectWise Manage
Network	Switches, access points, network troubleshooting
Backup & DR	Veeam, Datto BCDR, Cove Data Protection, Disaster Recovery Testing, Backup Administration
Microsoft 365	Microsoft 365 Administration, Exchange Online, Shared Mailbox Management, User & License Management
Automation & Scripting	AI-Assisted Script Development, PowerShell

Tools & Technologies

Windows Server Administration, Active Directory, Group Policy, DNS, DHCP, VMware, Hyper-V, RMM Tools, Remote Support Tools, Ticketing Systems, Veeam, Datto, Cove Data Protection, Microsoft Office 365

Key Achievements

- Automated software update deployment and endpoint administration through custom PowerShell-based Datto RMM components across 1,000+ managed devices.
- Developed automation solutions for Zoom version remediation, Windows licensing collection, Microsoft licensing collection, and local administrator management.
- Successfully recovered and migrated a legacy Clientele application from a corrupted Windows Server 2003 environment to a newly deployed Windows Server 2016 Hyper-V infrastructure.
- Managed end-to-end onboarding and offboarding processes across Active Directory, Microsoft 365, Alarm.com, and MyQ platforms.
- Administered Datto BCDR environments and participated in backup validation and disaster recovery activities.
- Configured, provisioned, and supported endpoint deployments for new client users across multiple customer environments.
- Performed Exchange Online and Microsoft 365 administration, including shared mailbox management, access provisioning, and troubleshooting.
- Supported patch compliance by performing Windows patch management, remediation, and post-update validation activities.
- Assisted with Hyper-V virtual machine deployments, migrations, troubleshooting, and infrastructure modernization initiatives.

Professional Experience

Engineer – NOC Services February 2026 – Present

Kaseya Software India Private Limited

- Administer Microsoft 365 environments including user provisioning, licensing, shared mailbox management, and Exchange Online troubleshooting.
- Manage Windows patch deployment, validation, and remediation activities across managed client environments.
- Support Datto BCDR backup solutions including backup monitoring, recovery verification, and disaster recovery testing.
- Troubleshoot virtualization issues involving Hyper-V virtual machines, storage, networking, and guest operating systems.
- Investigate and resolve infrastructure and connectivity issues including DNS, DHCP, VPN, and Active Directory-related incidents.
- Monitor and manage infrastructure alerts based on SLA priorities including Critical, High, Medium, and Low severity incidents.

- Troubleshoot system and endpoint issues such as Group Policy update failures, OS corruption, hard disk bad blocks, stopped services, and high CPU/memory utilization alerts.
- Perform initial remediation and incident handling using RMM and monitoring tools.
- Escalate unresolved or advanced issues to L2 teams or customers with proper troubleshooting details and documentation.
- Ensure timely response and resolution in accordance with SLA requirements.
- Coordinate with internal teams and customers during critical incidents and outages.
- Maintain accurate ticket updates, work logs, and remediation notes for incident tracking and audit purposes.

Associate NOC Engineer May 2024 – February 2026

Worksent Technologies Pvt Ltd

- Managed Windows Server (2016/2019/2022), Active Directory, DNS, DHCP, and Group Policies.
- Troubleshot system performance, user access, and network issues.
- Administered VMware and Hyper-V environments including VMs and networks.
- Used remote tools including TeamViewer, ScreenConnect, Splashtop, and Ninja Remote for server support.
- Performed data backups and disaster recovery tasks.
- Utilized RMM tools including N-Central, Ninja, Datto, Kaseya VSA, Atera, and ConnectWise Automate for alert monitoring.
- Updated tickets and work logs in Halo, Autotask, Salesforce, Freshdesk, and ConnectWise Manage.
- Performed scheduled server reboots and escalated critical outages as per SOPs.
- Monitored and managed network infrastructure including access points, switches, and firewalls through Cisco Meraki, Auvik, and Ubiquiti management consoles.
- Investigated device connectivity issues, escalated incidents to customers when network devices became unreachable, and coordinated resolution efforts.
- Worked directly with Internet Service Providers (ISPs) during site-wide outages, performed ISP-side troubleshooting, tracked restoration progress, and communicated status updates to customers.

Desktop Support Engineer August 2023 – May 2024

Randstad India Pvt Ltd

- Remotely managed IT operations for two Mahindra Holidays resorts.
- Handled office and guest network management, access points, firewalls, and switches.
- Managed Network Access Control and user device setups within the domain.
- Collaborated with vendors for hardware issue resolutions and oversaw IT asset management.

.

Certifications

- MCSE (Training Completed).
- Kaseya Certified Technician in Datto RMM
- Kaseya Certified Technician in Datto EDR
- Kaseya Certified Technician in Autotask PSA
- Kaseya Certified Administrator in Datto Backup
- Kaseya Certified Technician in RocketCyber

Education

Bachelor of Science in Computer Science | University of Calicut 2019 – 2022

Higher Secondary Education | CVMHSS, Vandazhy, Palakkad 2017 – 2019

High School | Mary Matha HSS, Panthalampadam 2017
